

of quality, viz., the weed seed content of the sample, the presence of other kinds of crop seeds, germination or vitality and the general quality of the seed. General analysis is usually determined by the thoroughness of cleaning and the removal of shrunk-on, shrivelled seeds and inert material.

When agricultural seeds are offered for sale for sowing purposes by anyone, the grade name and the certificate number employed as authority for the grade must be stated. This information, together with the name and address of the seller and the kind of seed, must be marked on the container or a label attached thereto. The grade and certificate number can be obtained only by forwarding a sample of the seed which is intended to be offered for sale for test, to the district Dominion Seed Branch office. If this is done and the seed is given a grade the owner of the seed is then in position to comply fully with the law by affixing the seed for sale. On the other hand, the purchaser of seed should know its quality, the weed seeds it contains, the germination and the grade, all of which can be ascertained only by submitting a sample for test. To know the grade of seed is a protection to both the seller and the buyer and surely protects the farmer if he is to use the seed on his farm.

Now is the time to prepare for the ensuing seed selling season by having seed tested and graded. Samples sent out for test and grade at this time will be ready for the kind of work received later. A sample should be drawn carefully so as to represent correctly the qual-

ity of the seed and if it contains any grasses, alfalfa or the clovers it should consist of approximately three ounces, and if of the cereals grains of at least one pound. Samples should be addressed to the Dominion Seed Branch, Immigration Building, Calgary.

Death Stalks The Highway

A recent announcement of the intention of the Federal department of transportation to conduct a campaign to reduce the annual toll of life and limb taken by automobiles and trucks on the highways and roads of Canada should be welcome news to all who use motor-driven power for business or pleasure. The campaign comes none too soon.

Statistics, just published, reveal that in the United States last year over 36,000 lives were lost by accidents in which automobiles and their drivers were the agents of death, in addition to an appalling number who were injured in greater or lesser degree. This means that, roughly, one out of every 5,555 persons in the U.S.A. perished by the automobile in 1935.

No doubt, when the figures are published, it will be found that the automobile accident death rate in Canada for 1935 was comparable to the American loss after allowing for the difference in population of the two countries and the lesser condensation of traffic. In 1934 the Canadian automobile casualty list totalled 1,108 deaths and 17,998 injured, some slightly.

Had 36,000 lives been snuffed out and hundreds of thousands injured in a single available catastrophe in the United States last year, the nation would have gasped with horror. There would have been demands for investigation and the imposition of safeguards to prevent the possibility of recurrence of such an overwhelming catastrophe, but because these deaths and injuries represent nearly as many individual accidents, distributed throughout the year and scattered over a wide geographical area, it has been customary to dismiss them with a shrug of the shoulder and a comment about "some fool driver", except by the bereaved relatives and friends.

However, there are indications that citizens of the United States are becoming aroused at a condition of affairs which has become a national menace. This growing concern is largely due to efforts of government agencies, corporations, police authorities and the newspapers, to acquaint the public with the facts and to drive home the risks which foolhardy and negligent motorists incur by their conduct on the roads.

Already, it is reported, that these efforts, supported by an aroused public consciousness of individual responsibility, is bringing results in sections of the country where intensive campaigns have been staged.

There is reason to assume that similar results can be achieved in Canada, if organizations and individuals will rally to the support of the authorities who have decided that the time has come when an organized effort must be made to minimize the hazards created by recklessness and carelessness.

Recklessness and carelessness, in the final analysis, are the two factors responsible for the great majority of deaths and injuries on the highways on this continent, on either side of the international boundary.

For many of the accidents that occur on country roads and city streets recklessness must be indicted, and very often criminal recklessness. In this category falls the driver who travels at greater speed than road, climatic or traffic conditions warrant, the driver who passes other traffic near the crest of a hill or on a curve, the driver who cuts in front of another too soon and the driver who beats the train to the crossing.

With respect to the last-mentioned hazard it is interesting to note that figures just secured from the records of the board of railway commissioners show that in 1935, there were 242 automobile smash-ups at railroad crossings in Canada, resulting in the death of 114 and injuries to 364, an increase of 28 in the number of similar accidents in 1934, an increase of 33 in the number of deaths and 42 in the number of injured.

Carelessness, too, must be marked up as the contributing factor for a large number of these accidents. It may be carelessness while the wheel is in the hands of the driver on the road. It may be carelessness in parking on a road in the dark with lights out. It may be negligence in failing to regularly and carefully inspect the brakes, the tires and the lighting system or in remedying defects when discovered.

And last but not least there is alcohol. Tests by medical authorities and scientists have demonstrated conclusively that the man carrying only a single drink is not as alert as he is normally without it and the man with several drinks inside him is a positive menace to himself, his passengers and those whom he meets or passes.

Alcohol, according to authorities, "plays a major part in the appalling list of accidents on this continent." This is recognized in the posters which are being prepared for distribution as part of the federal government's campaign to ensure greater safety to the users of Canadian highways, one of which reads: "If you must drink, don't drive. If you must drive, don't drink."

New Plating Alloy

Looks Like Pure Silver And Does Not Discolor

Development of a non-tarnishing plating alloy of silver and tin has been announced by Professor Lawrence E. Stout, of the Washington University chemistry department at St. Louis. The new alloy, composed

of 20 to 40 per cent silver and the best of tin, looks like pure silver, polishes as well, wears better and does not discolor.

Strengthening Air Forces

Canada Buying Four New Planes For Coastal Defence
The air force defence of Canada is to be strengthened in the spring by four new "protection cockpit" aeroplanes ordered by the Canadian government from the Blackburn Aviation Company of England.

The new machines are of the Shark class similar to those supplied to the British naval air service. The machines have an unusual lifting power so as to carry 1,500-pound torpedoes or an equal weight in bombs. They also carry equipment for aerial survey and photography and for artillery spotting and reconnaissance. A supplementary fuel tank inside the torpedo crutches will give the machines a cruising radius of 1,600 miles.

The machines will be operated by the Royal Canadian Air Force.

Depends On Ancestors

The farm flock keeper is rarely if ever justified in keeping hens longer than to the end of the second laying year. But to keep them even that long without a death loss that cuts seriously into profits, it is essential to have flock ancestors that have laid numerous large eggs for three or more years.

London uses more than 295 million gallons of water a day. 2134

French Query Service

Post Office Charges Different Prices For The Varying Questions

If you happen to be in France and want to know the date America was discovered, how to make good coffee or obtain a quick divorce, just dial S.V.P. on your telephone.

You will be answered by one of the employees of the new "If you please" service, just instituted by George Mandel, Minister of Posts and Telegraphs, Paris. At any hour of the day or night, M. Mandel's encyclopaedians will reply. Ordinary questions are answered for a sum of 6 to 15 cents. Twenty to 30 cents are charged for more difficult queries, and special terms are made for a real "power."

You can also have an errand run by a postoffice cyclist who will deliver you drinks, flowers and anything you like to any address. This will be charged for at the rate of 35 cents in the day and 70 cents at night.

It is expected that plenty of practical jokes will put delicate questions to the new service. But the better the joke, the higher the bill.

Synthetic Radium

Cornell University Builds Machine To Produce Rare Agent

At a cost of \$5,000 Cornell University has a machine capable of making artificial radium as a substitute for the real stuff, which cost \$40,000 a gram.

Completion of this machine, a cyclotron, the second of its kind in existence, was announced at Ithaca, N.Y. The Cornell cyclotron is already in operation.

The original cyclotron, a machine which uses a \$200,000 80-ton magnet to produce 10,000,000 to 15,000,000-volt rays was made by Dr. E. A. Lawrence at the University of California.

Now Science Explains Why So Many People Past 40

Feel That They're Slipping Losing Their "Grip" on Things

Many people "round 40 think they're 'growing old.' They feel tired a lot. "Wink." Have headaches, dizziness, stomach upsets.

Well, scientists say the cause of all this, in a great many cases, is simply an acid condition of the stomach. Nothing more.

All you have to do is to neutralize the excess stomach acidity. When you have one of these acid stomach upsets, take Phillips' Milk of Magnesia after meals and before going to bed. That's all!

Try this. Soon you'll feel like another person. The old "Phillips" or the convenient new "Phillips" Milk of Magnesia Tablets. Made in Canada.

ALSO IN TABLET FORM: Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Let us know what you think of a new Phillips' Milk of Magnesia.

PHILLIPS' Milk of Magnesia

BACKACHE

IF you have backache, dizzy spells, headaches, do not neglect your kidneys. Take GIN Pills for prompt relief at the first sign of these symptoms. You will feel better, look better — be better, if your kidneys are functioning properly.

GIN PILLS FOR THE KIDNEYS

BABY'S OWN SOAP

Victoria May See Bluenose

Captain Walters Considering Proposition To Visit Pacific Coast
Bluenose, queen of the fishing fleets, may leave her Atlantic home at Lunenburg, N.S., next summer to visit Canada's Pacific coast for the first time.

Captain Angus Walters, skipper of the racing schooner, said he was thinking over a proposition from a Victoria sportsman for a Bluenose visit to British Columbia waters, but he hasn't made up his mind yet. If he takes it up, the Pacific cruise will be Bluenose's longest voyage in her 13 years of fishing, racing and barnstorming.

Two years ago Captain Walters took her to the Great Lakes for the summer—her first taste of fresh water—and last year he went to England with her. That last voyage was the longest so far.

It came close also to being Bluenose's last. On the way home she ran into the bottom that almost sent her to the bottom and drove her reeling back to England for repairs that took three weeks.

But about the Pacific jaunt "Well," says Angus, "I don't know. They paint a pretty rosy picture, but we'd have to sail six or seven thousand miles to get there. Anyhow, we'll see."

Bluenose is ready for the trip. After a thorough going over on her return to Lunenburg, she is as seaworthy and fast as ever, Captain Walters believes.

Pioneer Newspaper Woman

Faith Fenton, Who Wrote Of Yukon Gold Rush, Dies In Toronto

Faith Fenton, pioneer Canadian newspaperwoman, died at her home in Toronto after a brief illness with pneumonia. In private life she was Mrs. John N. E. Brown, wife of a well known physician of Toronto. They were married in the little log church at Dawson on the first New Year's Day of the 20th century.

Dr. Brown had gone in with the first official commissioner of the Yukon and she was the first secretary of that territory. Faith Fenton was there in a dual capacity. At the suggestion of Lady Aberdeen, wife of the governor-general, she joined the field force of the Victorian Order of Nurses. But she also had been commissioned to write articles for a Toronto newspaper.

She obtained permission from the government to remain in the Yukon to write. One of her most famous experiences concerned a hanging. She was scheduled for eight in the morning but the courier left for the south at seven. Faith Fenton wrote her story and sent it off.

Then it was remembered it was a saint's day, the hanging was postponed and finally called off. With the help of police she got a half-bred runner who caught up with the courier several days later.

Institution For Beggars

Scholars Taught The Correct Places And Manner To Beg

A "beggars' academy" has been discovered by the police of Pilsen, Czechoslovakia, the famous beer city.

An empty barn in the nearby village of Silvermay was the seat of that institution which had two adult instructors and twenty-six boy "scholars."

The teachers told their pupils how to look miserable and "mained," and how to behave as "blind" and "dumb-and-deaf." Practical exercises were held, and crutches, bandages and other beggar's appliances were purchased at general prices.

Lessons were also given for writing begging letters, and instructions were given when and how the individual boys had to beg.

The booty was handed over to the teachers, who retained one-half and distributed the other half among the boys.

Need More Accommodation

Olympic Village In Germany Is Considered Too Small

Germany's Olympic committee, in charge of arrangements for the 1936 international sports contest to be held in the reich, conferred with the war ministry to consider additional accommodations for athletes from 48 nations, the committee learning that the nearly completed Olympic village is far too small.

Distinguishing goats from sheep is not always easy, for among the various forms there are some quite confusing to the inexperienced eye.

Water holes in some parts of Ethiopia are 50 miles apart.

Climb on the Band-Wagon

Join the cheering thousands of "roll-your-owners" who are stepping-up their smoking pleasure by getting back to Ogden's.

You owe it to yourself to enjoy Ogden's Fine Cut, and you can, when it costs so little! Ogden's rolls best of course, with the best papers: "Chanticleer" or "Vogus".

OGDEN'S FINE CUT
Your Pipe Knows Ogden's Cut Plug

Terror Of The Air

New Torpedo Can Travel Four Times Farther Than Fastest Shell

An aerial torpedo, or flying projectile, which can travel four times the distance of the fastest shell ever known, is one of two inventions, which may revolutionize warfare.

It is the invention of a young man who, working unobtrusively in a laboratory at Queen Mary's College, London, England, is fast becoming recognized as the Marconi of the aeronautical world.

He is Phiroze P. Nazir, aeronautical research student for the Government of India, who although only in his twenties, has already several astonishing inventions to his credit.

His researches make him a person of extraordinary interest to the representatives of other governments, many of which would be glad to know a few of the technical secrets which he looked up in his brain.

The German Big Bertha could send a shell only fifty miles.

Mrs. Nazir claims that his flying projectile, travelling on its own fuel without a pilot, could travel up to 200 miles at a speed of 300 miles an hour, and could be made to drop at any predetermined distance according to the amount of fuel placed inside.

This weapon would enable an air attack to be staged without warning.

Another far-reaching invention is a system of secret guns concealed in the tail of an aeroplane.

The guns are so arranged that immediately another plane comes behind within firing distance it is shot down before it has time to shoot.

A plane of this description, says Mr. Nazir, could attack a whole squadron and produce chaos among them.

The annual journey of the earth around the sun covers approximately 584,600,000 miles.

Study Cosmic Rays

Scientific Effort To Be Made To Penetrate Mystery

Dr. Arthur Holly Compton, University of Chicago physicist, and Nobel prize winner, announced the inauguration of world-wide scientific effort to penetrate the mystery of the cosmic ray.

He said he would leave for Vancouver, B.C., to install a cosmic ray meter aboard the S.S. Orangi as one phase of the observations, which will be conducted in widely-scattered regions of the globe.

The enterprise, Dr. Compton said, has two goals. The first was an explanation of the daily variations in the intensity of cosmic rays. The second was to find out whether the rays, powerful enough to go through 292 feet of lead, had greater intensity in the northern than in the southern hemisphere.

DO YOU NEED A BUILDER?

WHEN you're miserable and perhaps in need of a good tonic, weight below normal, and you feel tired-out and weak, follow the advice of Mrs. Francis Aliquot of 242 Sackville St., Toronto, Ont., who remarked: "I want to praise Dr. Fere's Golden Medical Discovery as a splendid system builder. It was of this benefit to me to relieve stomach trouble such as indigestion and sour stomach, and seemed to tone up my entire system. This tonic gives one a fine appetite, too, and strengthens the whole system. I know of no better medicine for its purpose." Buy now at drug store. New size, table 20 cents, liquid \$1.00. Large size, table 30 cents, liquid \$1.35.

Footwear For Dobbin

Twenty per cent more horseshoes nails have been sold in Canada this year than last. This either indicates that good old Dobbin is "coming back" or that he is getting more particular about his footwear. Either explanation points to better times.

The Man Who Knows

Whether the Remedy You are taking for Headaches, Neuralgia or Rheumatism Pains is SAFE is Your Doctor. Ask Him

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches, or the pains of rheumatism, neuralgia or rheumatism, ask your doctor what he thinks about it—in comparison with "Aspirin".

We say this because, before the discovery of "Aspirin," most so-called "pain" remedies were advised against by physicians on being bad for the stomach; or, often, for the heart. And the discovery of "Aspirin" largely changed medical practice.

Countless thousands of people who have taken "Aspirin" year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: "Aspirin" is rated among the *safest* remedies *discovered* for the relief of headaches and all common pains... and safe for the average person to take regularly.

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Chemical Limited. Look for the name Bayer in the form of a cross on every tablet.

Demand and Get "ASPIRIN"

Trains Chickens For Movies

The lack of trained chickens in Hollywood gave Warren William an idea. The actor has established the film colony's first school for fowl which may be film-struck but a little shy about it. Thirty chickens have been started on a course of education which he believes will fit them for every demand of the movies.

More persons met death in farm accidents than in any other occupation last year.

Constipation Gone!

Suffered since twelve years old. Fruit-a-tives brought lasting relief. Now enjoys life.

"Since twelve years old I was ill with constipation. Then three years ago I started Fruit-a-tives. They are mild and gentle in action, and they gave me wonderful relief. I am not late to enjoy life once more."—Mrs. F. Williamson, Montreal.

Containing extracts of APPLES, ORANGES, FIGS, PRUNES and HERBS, Fruit-a-tives are natural—do not contain habit-forming drugs. They are a sure shocker to strengthen all organs of elimination. Their tonic effects help bring lasting, glowing health.

FRUIT-A-TIVES NATURE'S FRUITS AND HERBS

ALL the Benefits of Cod Liver Oil WITHOUT THE Taste

Stops the most intense itching instantly. A 50c trial bottle, at drug stores, will prove it or money back. D. D. D. Prescription is made by the owners of IRVING'S BAZAR.

FLEMING'S FOLLY

— BY — LAWRENCE A. KEATING

SYNOPSIS

Here is an absorbing and exciting story of a fight against stubborn prejudice and a bitter personal malignancy—of a girl and a man battling, ridiculing, sabotaging, bullets, and the treachery that would turn them against each other.

The story opens with Link Fleming addressing a meeting of Boone County cattlemen, called together with the object of forming an irrigation company.

Roper Kilgo, the boss of the Rawhide and nearby ranges, who seemed to approve the plan, but was really opposed to it, had forced Buck Turner, a derelict mining engineer, whom Roper intended to call upon to give his expert opinion in favor of the scheme, to reverse his earlier endorsement, and declare that irrigation in Boone county so far as Hamilton's plan was concerned, was only a new-fangled way to waste money.

The meeting terminates, but Buzz Hamilton and his sister, Helen, Link Fleming, who is a newcomer to the Rawhide, and Helen, who is a local girl, are left to discuss Fleming's questions about his irrigation plan. This angers Buzz, who accuses Fleming of trying to influence his sister and, as he asserts, ruin his "spread". Buzz shoots at Fleming, but the bullet is deflected by a rock. Helen, who is a local girl, is shot in the stomach, and Fleming is unhurt. Buzz is arrested. The doctor attends Townsend and dresses his wound. Kilgo Roper suggests taking Helen to her home, but she refuses and Fleming escorts her home instead. This incident causes Roper to declare an open hostility to Fleming.

Helen and Fleming form a partnership to provide irrigation for their own properties. Link goes home, and is surprised to find and Kilgo there ahead of him. Kilgo tries to induce Link to drop out, but when Fleming refuses, gives a signal by taking off his hat, and Link is shot at from outside the house.

Link kicks Kilgo out of the house. Buzz Hamilton is sentenced to three years imprisonment for shooting Bud Townsend.

(Now Go On With The Story)

CHAPTER V.—Continued

Both men froze at the ringing command from Sheriff Ames Stephen. "We had enough gun-talk 'tother day," he remarked coldly. "What's the matter here, can't you men get along?"

"He called me a liar," Roper growled.

"He did distort the truth a bit, according to my views. Helen," Link went on directly, "are you heading out to the ranch?"

"Why—uh, I'd sort of planned going that way, Helen," Kilgo interposed, rubbing his jaw.

She hesitated while the three men watched her. "Why yes, but there's something important I want to talk to Link about."

His face lighted slowly with a knowing grin. "Shore, I savvy! I'll come over tonight and have a good talk. Remember what I told yuh, Helen—"

"About trying to buy me out so as to protect her from my bad influence?" Link grinned. "That's stretching the truth a bit, Roper. There was a queer shooting scrape at my place that night—"

"Shootin'?" Helen exclaimed. "Nobody told me about it!" Ames Stephen growled.

"Prob'ly some guy ridin' home drunk. Nobody got hurt."

Fleming turned to him and bowed. "Thanks to poor marksmanship. Better get someone else next time, Roper."

He bristled again. "Are you tryin' to make out I put some guy up to that?"

Helen darted between the men, both of them rising to hot anger again. "Stop! Why, Link, whatever possessed you? I've known Roper for years and I know he wouldn't have anything to do with an attempted murder. That is too much, altogether too much. Whatever you think of him, it's foolish to call a man a killer when you haven't the slightest proof—why, Link, I'm surprised at you!"

He stepped back in dismay. The suddenness of her defense of Kilgo brought a look of perplexity to the rancher's rather handsome face. Fleming avoided her accusing eyes. Seemingly he had overstepped himself. The heightening sense of trouble brewing, with Roper as his chief antagonist had, perhaps, caused him to be indiscreet.

"Aw, Link, let's forget it. Come on, what do yuh say?" The other shuffled forward wearing a forced smile of friendliness. One hand was thrust out in the pretense of forgiving. Link eyed him an instant. Then his lids lowered and his voice snapped cold and "controlled."

"That's just a grandstand play, and you know it. There's no friendship between us!"

He turned on his heel and started off. But with a gasp Helen scurried after and seized his sleeve. "Link, please! Why not be friends? If you won't," she hinted with color.

draining from her cheeks. "I—I'm afraid you will have made a choice. Roper is a good friend of Buzz, and he has known Buzz and me longer than—that you have. I mean, well—almost anyone who is a man is willing to forgive and forget. Are you trying to make trouble?"

He hesitated, unwilling to pretend comradeship for one whose face and words were a mere mask of his true feelings. But Helen's meaning was clear: she was insisting upon this handshake to restore peace. Perhaps she felt it her duty to bring them together on a new basis. Roper considered himself practically engaged to her. What was her real feeling about that?

A partnership in irrigation could not be successful unless there was harmony between them. And—Link's pulse sped faster—wasn't that genuine concern in the girl's eyes, concern for his well-being if he had an influential enemy in Kilgo?

He despaired himself for doing it, yet felt he must. Sheriff Stephen watched the tableau in silence. Fleming raised his hand, pressed Roper's briefly, then turned away.

"Shall we start now?" he asked in a low tone.

As they rode off Link had an uncomfortable suspicion that somehow Kilgo had been in the scene. He cast a sidelong glance at Helen and found her uncommunicative. When they reached Rawhide and were walking their horses down its main street Otto Pieper emerged from his bank. He sighted the girl and beckoned.

"I'm sorry, but I forgot I'll have to stop and talk to Mr. Pieper. You see, I want to find out just what the condition of the Triple H is, how much money we have and all that." He considered offering to wait, but felt instinctively that she might prefer to go on alone—or to have Roper, who rode with several other men a half mile behind, escort her home.

"By the way," Link said, drawing his buckskin near as she dismounted before the bank. "I don't want to press you about this irrigation business, but I'm wonderin' if you really want to come in with me. Maybe you'd like to think it over real careful, now Kilgo—er, folks are so set against it."

She tied her pony, then smiled at him from the sidewalk. "I've decided to go into it, Link."

His heart leaped. It was true that Triple H land adjoining his Star Loop spread would benefit the most, was the local outfit to club with him for the erection of a dam to back up Silver Creek.

"When can we get down to bed rock on this proposition?" he asked.

"The thing should be started now so we'd get an alfalfa crop early next summer. If we wait till spring I'll be that much longer for a return."

She hesitated, then spoke what was on her mind. "Link, I didn't want you to have more trouble with Roper—that's why I asked you to shake hands with him. I came with you now to say that. Perhaps you don't like him, but after all, he is a friend of mine."

He flushed and made no reply. "But I'll tell him not to come to the ranch to-night. You come, Link, and we'll talk over all our plans for irrigation. Why not come early, for supper?"

The Box 50 owner, Benson and Sheriff Stephen were dismounting a few yards away. Fleming felt certain Kilgo had heard Helen's invitation. He could not restrain a thrill of triumph. "Fine, I'll sure be there!" Turning his mount, he started at a brisk run for the Star Loop.

Pieper, he knew, would attempt to talk her out of participating in what the conservative banker now regarded as a "wildcat" scheme. Otto's habit was to believe what the majority of local citizens believed; he had discovered long ago that such a policy kept him in the good graces of influential men who might otherwise have ousted him from the bank presidency. Link hoped that Helen would not state her intention to Otto. As for Kilgo, he felt certain now the man could not persuade her out of the partnership.

Mr. CAFFEINE-NERVES finds out who is boss

30 DAYS LATER

Little Helps For This Week

Behold God is my salvation, I will trust and not be afraid; for the Lord Jehovah is my strength and my song. He also is become my salvation. Isaiah 12:2.

Still heavy is thy heart, Still slinks thy spirit down? Cast off thy weight, let fear depart. And every care be gone.

Go on in all simplicity; do not be so anxious to win a quiet mind, and it will be all the quieter. Do not examine so closely into the progress of thy soul. Do not crave so much to be perfect, but let your spiritual life be formed by your duties and by the actions which are called forth by circumstances. Do not take overmuch thought for tomorrow. God who has led you safely so far will lead you on to the end. Be altogether at rest in the loving holy confidence which you ought to have in His heavenly Providence.

Must Worry Wearer

Evening Gown Covered With Thousands Of Tiny Mirrors

Six thousand tiny mirrors form part of a new evening gown of ink-blue chiffon. The mirrors, which are faintly tinted with blue, were sewn on by hand. It took four girls five days to sew them on. The gown itself is simply cut, on long clinging lines, with a tiny train which must cause moments of intense worry to a superstitious owner—a clumsy escort walking on the train would mean about a thousand years of bad luck!

Elm For Chinese Junks

Elm trees grown in the district of Elmira, Ont., will soon be part of Chinese junk sailing rivers in the Orient. Crews of men are busy buying elm trees to square timbers for shipment to Vancouver and thence to Hong Kong, China, to be used in shipbuilding.

Scaleless goldfish are not scaleless; the scales are merely transparent.

Need Checking Up

The Rotarian Magazine says habits are Nature's way of relieving the brain of conscious effort in doing the hundreds of things we do each day "without thinking." They are a valuable device, and we wouldn't be without them. But it's a good idea, once in a while, to check up on oneself, to see if careless habits of thinking, as well as doing, aren't at fault for what we've blamed on everything else.

STOP THAT COLD IN A HURRY WITH

Grove's Laxative BROMO QUININE

You can't be careless with colds. They can quickly develop into something much more serious. At the first sign of a cold take Grove's Bromo Quinine. Groves has what it takes to stop that cold quickly and effectively. At all drug stores. Ask for Groves'. They're in a white box.

No wonder Purity Flour is a favorite for bread. Its richness in nourishing gluten is supplied by Western Canada hard Spring wheat. A strong flour that goes farther—economical.

Town & District

The United Church W. A. skating carnival that was to have taken place next Friday evening has been postponed. Announcement of the new date will be made later.

K. R. McLean, Slight Specialist of Calgary, will be at Dr. Farquharson's office, Monday morning, January 27th.

One of the boys on the Gunners hockey team won a mad dash up the ice with the puck. It was noted that he never once looked back.

The dance scheduled for Friday night at the Meadowbrook Hall has been postponed until the following Friday, Jan 31.

MEMORIAM

LEWIS:—In loving memory of our dear mother, Lillian Mabel Lewis, who died January 19th, 1933.

Peaceful be thy rest, dear mother,
It is sweet to breathe thy name;
In life we loved you dearly
In death we do the same.

ROSE, KATE, ALEX. and DICK.

GLEICHEN UNITED CHURCH

Rev. J. N. Wilkinson, minister.

Mrs. H. Birch, choir leader.

Miss Jean Farquharson, pianist.

11 a.m. Church School.

7.30 p.m. Public Worship

Subject: The Value of an Education.

This subject should be of special interest to parents, teachers and young people. Statistics gathered in normal times will be given showing the advantage college and high school graduates have over those without such training. Following this the question of how far religious education follows the rule observed in secular education will be considered.

LEAP YEAR POETRY

Tell us not in idle jingle "marriage is an empty dream;" for the girl is dead that's single, and things are not what they seem. Life is real, life is earnest, single blessedness a fib—"Man thou art, to man returneth," has been spoken of the rib. Not enjoyment and not sorrow is our destined end or way, but to act that each tomorrow finds us nearer marriage day. Life is long and youth is fleeting, and our hearts though light and gay still like pleasant drums are beating wedding marches all the day. In the world's broad fields of battle, in the bivouac of life, be not like dumb driven cattle—be a heroine—a wife! Trust no future, however pleasantly let the dead past bury its dead; act—act in the living present, heart within and hope ahead. Lives of married folks remind us we can live our lives as well, and departing leave foot prints in the sands of time.

CHRISTIAN SCIENCE

At all Christian Science Churches next Sunday, the subject of the Lesson-Sermon will be "Truth." The following is one of the Scriptural quotations contained in the Lesson-Sermon: "Study to shew thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth" (II Tim. 2:15). One of the correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, is as follows (Preface vii): "The question, What is Truth, is answered by demonstration,—by healing both disease and sin; and this demonstration shows that Christian healing confers the most health and makes the best men."
